Want To Save Money On Printheads?

The Second Best-Kept Industry Secret!

Are you purchasing printheads for your thermal transfer printer from the Original Equipment Manufacturer (OEM)? Do you feel you do not have a choice or that you are paying through the nose? Many people sell OEM printheads. These printheads come directly from the manufacturer, with no competition, and you pay the OEM established rate.

After years without any options, we have great news. You now have a choice.

We partner with a company that makes OEM and OEM compatible printheads. This company has been manufacturing printheads for more than 30 years. We are very excited about this opportunity and making you aware of the “second best-kept industry secret.” OEM compatible printheads have the same warranty as OEM printheads, but cost as much as 45% less. Less down time and lower cost is a win, win situation for you and your company.

Contact us for a list of available OEM compatible printheads.

We are so confident in the quality of these printheads, we offer a 100% money back guarantee. If you are not completely satisfied with this product, for any reason, we will refund your money. In addition, when you use our supplies, we will double the manufacturer’s warranty. Try our OEM compatible printheads, you will not be disappointed.

For answers to your questions or additional information, contact me at 603.527.0256 or at dritchie@PaladinID.com.

Thank you for your interest in PaladinID, LLC. We are here to help you “Make Your Mark.”
